

Count to 10 with the Sioux and ravens

AAC Tool

Material needed:

- 9 bands laminated of 1 to 9 light squares with raven
- 9 bands laminated of 1 to 9 dark squares with Sioux
- a notebook or a sheet

Key competence: numeracy

GENERAL OBJECTIVES

This activity is relevant to develop:

- arithmetical agility to quickly calculate complements to 10.
- memory skills

The repetition of this exercise helps pupils:

- to integrate the mechanism of counting to 10
- and find strategies to make it automatically

HOW TO USE IT

The instructions on how to use it are available in the activity sheet

HOW TO CREATE IT

You will find attached the print version to work on with your pupils.

You can print and laminate for further use as a material that you can leave on a shelf in your class.

You may also print it, so that the pupils will cut and glue the bands in their notebook.

TO GO FURTHER

On their notebook, elder pupils will draw each number under the band to integrate mechanism of addition.

Teacher can print card numbers until 10 and signs “+” and “=” and laminate them to be manipulated by the pupils.
